

PARADISE DENTAL TECHNOLOGIES

Amazing Graceys™

Our 'smart' methods of 100% made in the USA manufacturing enable us to significantly improve the Gracey design in a way that practitioners can easily recognize and experience for themselves. The improvement is easily seen. The blades have very uniform bends that do not have sudden sharp angulations and cornered heels like many of the competitors' Graceys do. PDT's new Amazing Graceys™ are designed for easier and greater adaptation to the tooth surface. 200 - 300% greater than others! This means that the practitioner will use fewer strokes, culminating in less patient chair-time and less stress on both the patient and the professional.

PDT GRACEY

LEADING COMPETITOR
